

LANDHOLDER AND COMMUNITY ENGAGEMENT

The New Hope Group is committed to being a good neighbour and community member, with a proud history of operating in the region that spans more than a decade.

Our regular community engagement and communications activities include:

- » Ongoing access to community staff at the New Hope Group Community Information Centre in Oakey;
- » Community information sessions on a broad range of topics, including a particular focus on the Stage 3 Project and access to technical staff;
- » Monthly drop-in consultation sessions for Jondaryan residents, held on the first Thursday of every month at the Jondaryan Hall on Duke Street;
- » A Community Reference Group (CRG) with broad representation including landholders and community members, government stakeholders and service providers;
- » Public tours of our New Acland Coal Mine operation;
- » Continued sponsorship and participation in local community events and activities; and
- » Regular community newsletters and updates through our website and the local media.

We also maintain individual engagement programs with the landholders that surround our operations to ensure their specific information needs are met in an appropriate and timely way.

Contact Us

If you would like further information about the communication and engagement options available to you, please contact us by:
